

To Whom it may concern

I have known Ms. Judy Popov as a student at Tidewater Community College, Norfolk, Virginia. She attended my Business Statistics Course in Fall 2005. Her attendance was excellent. She demonstrated an exemplary attitude towards learning the complex materials. She was inquisitive and set an example to the class by making sure she understands every step.

She has a delightful sense of humor. It was a pleasure to have a student like Judy in the class because her attitude is contagious.

I am sure she will be an excellent student at the next level. I wish her all the best in her quest for a Bachelor's degree.
